

Belmont Cheveley Park Primary School

Geography Passport

Year 1

Geography Passport

Autumn 2: Our School

- Where is our school?
- How can we find out what our school is like?
- What can we see on an aerial photograph?

Spring 1: Belmont

- Where is Belmont?
- What do we use maps for?
- What can we see on a map?
- How can we find out what Belmont is like?

Summer 2: The North East of England

- What are the four compass directions?
- What part of England is Belmont in?
- What cities are there in the North East?
- How can maps help us to plan a route?

Year 2

Geography Passport

Autumn 2: Countries of the UK

- What are the four countries of the UK?
- Which capital city is the furthest north?
- What are the seas that surround the UK?
- What do all capital cities have in common?
- How are the four capital cities different?

Spring 2: Exploring the World

- What is the difference between a country and a continent?
- What continent do we live on?
- What is the biggest ocean?
- Why is it important to protect the oceans?
- Where are the hottest areas of the world?
- Why is Antarctica such a cold continent?

Summer 2: Point-a-Pierre: a comparison study

- What is an island?
- How are Belmont and Point-a-Pierre the same or different?
- Why is the weather in Point-a-Pierre different to Belmont?
- Why might people choose to move to a new country?
- How can we make people feel welcome in our country?

Year 3

Geography Passport

Spring 1: Navigating the UK

- Which counties are in the North East of England?
- What is the difference between human and physical features of a place?
- How is land used differently across the UK and why is this?
- How has land use changed over time?

Summer 1: Mapping the UK: highlands and lowlands

- What is special about National Parks?
- What can we see on an Ordnance Survey map?
- How can Ordnance Survey maps be used to plan a visit to a place?
- How do the physical features of a place influence the human features?
- How can we protect the environment in popular tourist areas?

Summer 2: Island Life: The UK Coastline

- What is the difference between a coast and a beach?
- How do erosion and deposition create the physical features of a coastline?
- What causes coastal erosion?
- How can we protect the coastline?
- Are coastal areas always the same?

Year 4

Geography Passport

Autumn 2: Southern and Western Europe

- What are some of the countries of Southern and Western Europe and their capital cities?
- What is the difference between climate and weather?
- How are climate and weather linked?
- Why do some countries in Europe get more rain than others?
- Why are Southern European countries warmer?

Summer 1: Following the River Danube

- Which countries does the River Danube flow through?
- How are rivers formed?
- What are the key features of all rivers?
- What is the same and different about the Wear and Danube rivers?
- What impact does economic activity have on the environment?

Summer 2: The Bay of Naples: a comparison study

- What does the North East landscape look like?
- How does the information provided on globes, atlases, OS maps and satellite images compare?
- Where do earthquakes happen and why?
- What causes earthquakes?
- What are the similarities and differences between the North East and the Bay of Naples?

Year 5

Geography Passport

Spring 1: Exploring South America

- Which bodies of water surround South America?
- What are the only two landlocked countries in South America?
- What are the different climate zones that can be found in South America?
- How is the climate in South American countries affected by their location?
- How does climate influence trade and exports?

Spring 2: Volcanoes, Mountains and Earthquakes

- Where are the most mountainous areas of South America and why are they there?
- How are volcanoes formed?
- Are all volcanoes the same?
- What is it like to live near volcanoes?

Summer 2: Life across Brazil

- What makes Brazil so biodiverse?
- Why do people settle in the Amazon Rainforest?
- What can you see in Rio de Janeiro?
- Is life the same for everyone across Brazil?

Year 6

Geography Passport

Autumn 2: Visiting Mexico

- Which countries share a border with Mexico?
- Which bodies of water surround Mexico?
- What is a biome?
- How are biomes and climate zones linked?
- Why does Mexico have many different biomes?

Summer 1: Exploring North America

- What are some of the countries in North America and their capital cities?
- Why does North America have such diverse environmental regions?
- How do climates across North America compare?
- Why do different parts of the world have different time zones?

Summer 2: Exploring North America

- What are some of the countries in North America and their capital cities?
- Why does North America have such diverse environmental regions?
- How do climates across North America compare?
- Why do different parts of the world have different time zones?
